

Graduate Cloud/Data Engineer

Job Description

As a new talented graduate, you'll be seeking the right opportunity to start your career. Here at Crimson Macaw we can give you that start in a new fast-growing consultancy specialising in cloud, data and business intelligence. As we are ambitious and growing, your knowledge, experience and development are important to us and we will be supporting you every step of the journey from a new graduate to an experienced data engineer.

As a graduate engineer, you will be helping our customers build cloud data environments using "Infrastructure as code" to quickly implement reproducible environments. We are working on some great data projects and need talented engineers, like you.

Being part of a consultancy, you will need to visit client sites and understand how we can help drive their success. We also support our customers' solutions and you will help with this.

Required

You will have (or expect) a 2.1 or above in Computing or related subject (a Masters in a Computing related subject is also acceptable).

Good English skills (both written and verbal).

A passion for learning.

Able to work within a team and when necessary, independently.

You will be able to demonstrate the following:

An understanding of different programming paradigms – Object Oriented, Functional, Prototype.

Ability to solve problems with your favourite programming language.

Desirable Skills

Experience in Java/Scala/Python/JavaScript.

Experience in Test Driven Development or Behaviour Driven Development.

Understanding of cloud computing concepts and deployment mechanisms.

Experience using Amazon Web Services.

Experience/Understanding of databases/SQL.

Experience/Interest in Machine Learning.

The Package

Basic salary of £20-35k, based on qualifications/experience, plus bonus, pension and benefits (including a car allowance, private medical, Safari Books Online and gym membership).

We will support you in taking the AWS certificates, to evidence the knowledge and understanding you have gained whilst working with us.

How to apply:

Please apply by sending a CV and covering letter to jobs@crimsonmacaw.com.

Your CV should contain your working experience and skills etc. Your covering letter should express why you are interested in this field and any useful information that you think we will find relevant; this could be applications you have built, presentations at meetups, or anything else that shows your enthusiasm or work.

About Us

We are a growing consultancy specialising in the cloud, data and business intelligence. Partnered with Amazon Web Services (<https://aws.amazon.com>), Snowflake (<https://www.snowflake.net>) and Tableau (<https://www.tableau.com>), we help our customers leverage the value of their data through quick to implement, scalable cloud technologies and market leading analysis and visualisation tools. We are based in the city centre of Manchester (M60 0AS) in the NOMA district near Victoria Station and the Northern Quarter.
